

# HERE & NOW

## ZOONO – Single Application Hand and Surface Sanitiser

**Clivic Fogging Services** provides ZOONO®'s long-lasting sanitisers that stop bacteria and viruses in their tracks. Their innovative technology is backed by over 150 lab reports, so you can trust ZOONO to keep you, your family and your business protected. ZOONO products provide long-lasting protection for up to 30 days on surfaces and 24 hours on your skin with a single application against several bacteria and viruses, including feline coronavirus, a surrogate of COVID.

### Safety

ZOONO products are safe and non-toxic to humans and pets and are **Food Safe**. It is less toxic than Vitamin C.

### ZOONO long-lasting

ZOONO's protective shield has been proven to kill 99.9% of bacteria and viruses on human skin for up to 24 hours and those on surfaces for up to 30 days.

### Scientifically proven

ZOONO's innovative germ popping technology is proven effective against a wide range of bacteria and viruses. The long list of efficacy tests passed includes PAS2424, EN13697, EN1276 and EN1650.

### ZOONO products

Clivic offers a game-changer with ZOONO products that protect families, employers, employees and customers in numerous environments, such as schools, transport, retail, healthcare facilities, offices and factory environments and the entire hospitality and sport sectors. Clivic offers customers products and services that are a unique combination of innovation and technology.

ZOONO can be characterised as depositing a layer of molecular "pins" that assemble in a contiguous, molecular matrix that permanently bonds to any surface to which it is applied providing a protective barrier that is hostile to any pathogen that is subject to lysis (ie, the disintegration of a cell by rupture of the cell wall or

membrane). By creating a defensive, antimicrobial layer on a nano-scale, Zoono is not only more effective than traditional disinfectants it **also** has the benefit of working consistently over a protracted period of time.

**Germfree24 hand Sanitiser** forms a long-lasting antibacterial shield that bonds to skin killing a wide range of bacteria and viruses, to give you peace of mind that you and your loved ones are protected for 24 hours with a single application. GermFree24 is a water base, alcohol-free sanitiser that doesn't wash off.

**Zoono Z-71 microbe shield surface sanitiser** can be sprayed directly on surfaces or when conducting fogging services in various facilities. This product forms a long-lasting antibacterial shield that bonds to surfaces and is proven against a wide range of bacteria and viruses. This product will protect all surfaces against any contamination for up to 30 days with a single application.
